APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 22936, Certificate 6855 is issued subject to the terms and conditions imposed in said Permit 22936, Certificate 6855 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total land irrigated under Permit 71864, and any water of the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 195.04 acres within the described place of use.

This permit for underground water is issued as a supplemental water supply to lands that have a surface water right from the West Walker River as set forth in Claim No. 155 of the Walker River Decree C-125, or from storage water provided from the Walker River Irrigation District. The total diversion of water for irrigation from any and all sources shall not exceed the duty of water for this place of use as set forth in the Decree.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.649 cubic feet per second, or 601.70 acre-feet per season.

Work must be prosecuted with reasonable diligence and be completed on or before:

February 3, 2008

Proof of completion of work shall be filed before:

March 3, 2008

Water must be placed to beneficial use on or before:

February 3, 2011

Proof of the application of water to beneficial use shall be filed on or before:

March 3, 2011

Map in support of proof of beneficial use shall be filed on or before:

March 3, 2011
